# Overall guidelines

By following these instructions for using our trademarks, you can help us protect and strengthen Wazuh's trademark rights. This set of usage rules is intended for developers or any other party wishing to use Wazuh trademarks or service marks (both referred as trademarks hereunder) for any permitted use case, weather in print or online marketing, education, promotion, or reference resources; or as otherwise expressly authorized by Wazuh.

- The word "Wazuh" must be used precisely: it may not be shortened or merged with another word.
- Always distinguish the Wazuh trademark from surrounding text by using capital letters, bold type, italics, color, underlining, quotation marks, or a special stylized format.
- Always use our trademark consistently, including the same spelling, punctuation, and spacing.
- Always use the Wazuh trademark as an adjective modifying a noun, and never as a singular or plural noun.
- Do not use our trademark as a verb.
- Do not use the Wazuh trademark in the possessive form.
- Use the generic term for the product/service following our trademark, for example: Wazuh training, Wazuh support service, Wazuh cloud.
- Do not remove, distort or alter any element of the Wazuh trademark. That includes modifying the trademark, for example, through hyphenation, combination or abbreviation. Do not shorten, abbreviate, or create acronyms out of our trademarks.
- The Wazuh logo should not be modified or incorporated into other designs. Use only Wazuh -approved artwork when using our logo.
- Please follow this guideline when using the Wazuh logo.
